**Feeling overwhelmed? Here are some of our favorite tips to stay motivated and grounded!**

- 01 Get started early.**  
Keep productivity high by diving into that to-do list first thing in the morning. Combat that morning sluggishness with morning motivation!
- 02 Create a workspace.**  
Find somewhere away from distractions. Make sure your work space is comfortable and uncluttered. Set the mood with your favorite playlist, podcast or white noise.
- 03 Stay connected.**  
Check in with colleagues, friends or family throughout the day. Just because we're social distancing does not mean we have to lose all social interaction.
- 04 Give yourself a break.**  
Who knew sitting inside all day could be so taxing? Set breaks throughout the day to get up, stretch and reset your mind.
